

Numeracy

We will be starting off the term with multiplication and division facts of 2, 5 and 10. Your child will be investigating links between both operations and recapping on odd and even numbers. The class will then move onto reading and designing graphs, measuring length and mass and finishing with money and fractions.

History

This term we are learning about two significant people who made big changes internationally. We will be researching, acting out, writing about and sharing information on Christopher Columbus and Neil Armstrong.

Literacy

We will be writing information about plants, acting out/ writing an explorer story and writing poetry. In the second half term the writing will be linked to our school grounds.

Science

This term we are learning about plants, including trees. We will be planting seeds and bulbs, predicting what they need to grow well and observing the plants carefully as they grow.

We will be using our school grounds to enrich our curriculum and making strong links with Forest Schools.

Setting up experiments to test our predictions will be part of our ongoing learning.

RE

In term one we will be discussing the Feasts of Christmas - Epiphany and then learning more about Revelation through discussion, Drama and listening to stories.

In term two we will be finding out more about Lent and celebrating Holy Week.

If you were an explorer,
where would you
explore?

Art/DT

We will be exploring Aboriginal art in the first few weeks of term and then linking our Science work on plants with observational drawing. DT activities will link with our Forest School sessions in the school grounds over the second half term.

ICT

We will be learning to save work on our computer this term and to change font, colour and size of letters. We will be discussing the many uses of ICT with our modern day explorers compared to the past.
