15th October 2020

Dear Year 1 Parents

This morning the second staff member of the Year 1 team has tested positive for COVID 19.

I have been in touch with PHE and have been reassured that all the steps the school have taken are appropriate and that no further action is needed. The 23rd October remains as the date when your child no longer has to self-isolate.

However as the letter stated yesterday should anyone develop symptoms, please follow the advice in my previous letter.

If at any time during the next two weeks should anyone in your household test positive for COVID 19, please can you email the school office at office@stmarysdorchester.dorset.sch.uk to inform us.

The school will be having a deep clean during the two week break.

It's been fantastic for me to log on to IXL this morning and see the high percentage of children in the class who are completing the online activities.

Thank you for your continued support to the school and your child's learning at home.

Yours sincerely

P. Fearn
